Medical Laboratory Professionals Week, April 23-29, is an annual celebration of our specialists in disease detection.

Laboratory professionals analyze tests on blood, urine, or body tissue so physicians can diagnose patients and make a treatment plan. They keep our laboratory operational 24 hours a day under strict protocols for safety and accuracy. They will perform more than 40,000 laboratory tests this year.

We salute our laboratory professionals Kelvin McMillan, director; Carla Brown, Dunhill Casipong, Gay Galano, Christa Kirby, and Richard Acayan!
