EMS MANIKIN HAS LIFE-LIKE FACIAL FEATURES

What is It?

Vital Sim, Vital Signs Simulator, acquired in 2009. Medics and students practice life-saving skills on the lifelike manikin.

Teeth, Palate:

Inside the manikin's mouth are realistic teeth and soft palate. The roof of the mouth moves in response to the pressure the medic applies when inserting a laryngoscope to look past the throat and into the airway.

Eye Pupils:

The EMS trainer inserts simulated eyeballs so medics can practice analyzing eyes as they relate to emergency conditions. For example, pupil size may vary from eye-to-eye in cases of drug overdose.

Apply Here To Train As an EMT or Paramedic:

Love County EMS has a fulltime training director and classrooms at Station 1, Marietta, and Station 2, WinStar Casino. Students can take courses and clinical training associated with becoming an EMT, Paramedic, or emergency (volunteer) medical responder. To learn more, contact Natasha West, Training Director, 276-3347, or www.lovecountyems.com.
